Indicating Lamps, Rectangular Minalite® For 1/8" to 2" Thick Panel Mounting

Ordering Information:

A complete indicator consists of one receptacle, one resistor, one set of hardware, one lens and one bulb.

Ordering example:

Item 1 - One S #1589 184 rectangular Minalite indicating lamp

Assembly **4**

Item 2 - One S #1124 156 Bulb

Item 3 - One S #1615 688 Red Lens

① Do not use for circuit breaker trip coil supervision. For this application a special bulb and series resistor are required. Refer to Westinghouse.

② With tapped resistor for "bright-dim" operation.

③ Receptacle, Resistor and Hardware are placed in a carton under one style number. Bulbs and Lenses are supplied as separate items.

④ Style does not include a resistor.
