

MARK 75 TYPE HFB • 1 AMPERE AB DE-ION CIRCUIT BREAKER

15-40 amperes • 2 and 3 pole • 600 volts a-c

Maximum and Minimum Characteristic Curves
40°C ambient - cold start
65,000 amperes symmetrical interrupting capacity (240 volts)
22,000 amperes symmetrical interrupting capacity (480 volts)
18,000 amperes symmetrical interrupting capacity (600 volts)

Curve No. SC-2902-68
March 1968

Westinghouse Electric Corporation
Standard Control Division, Beaver Dam
