

MARK 75 TYPE HFB • 100 AMPERE
AB DE-ION CIRCUIT BREAKER

90-160 amperes • 2 and 3 pole • 600 volts a-c

Maximum and Minimum Characteristic Curves
40°C ambient • cold start
65,000 amperes symmetrical interrupting capacity (240 volts)
22,000 amperes symmetrical interrupting capacity (480 . . ts)
18,000 amperes symmetrical interrupting capacity (600 . . ts)

Curve No. SC-2904-68
March 1969

Westinghouse Electric Corporation
